# neo MEDIA

## Filtration biological media

Using advanced technology, Aquario Neo Media provides fine, yet unobstructed large pores within the filter medium allowing a variety of beneficial bacteria to live and thrive.

### SOFT

Recommended for slightly acidic environments. Perfect for: aquatic plants, shrimp, and tropical fish species such as Tetras, Rasboras, Angel Fish, Discus, Gourami and Bettas.

### PURE

A true neutral filter medium and has little effect on pH. Will not raise the pH of an acidic aquarium tank and will not lower the pH of an alkaline aquarium tank. Perfect for all aquarium tanks and inhabitants.

### HARD

Ideal for alkaline environments such as aquarium tanks containing brackish fish, African Cichlids, and marine life or corals.

# neo FLOW

## Upgrade accessories

Enhance Aquario Neo Flow Pipes with various inflow and outflow attachments tailored for specific needs. These Aquario Neo Flow accessories are all designed to fit perfectly and can be used in conjunction with each other.

### OUTLET

A wider distribution of flow

### SKIMMER

Inline surface skimmer

### RELIEVER

Create a gentler flow

### MIXER

Inject CO2 while creating a gentle flow

### INLET

Prevent smaller livestock from harm
