Nature at home

DENNERLE

Nano & Cubes & Tanks

Modern and compact design combined with tradition and quality. This is what the Dennerle aquaria with the Nano Cubes and Nano Tanks stand for.

The compact design makes it possible to experience a piece of nature in your own home, even in a small space. A visual highlight for any room, this is not least due to the rounded edges that allow a panoramic view of the aquarium. Our sets offer combinations of technique and substrate and are optimally adapted to the needs of beginners.

All aquaria now with starter guide!

Nano Cube Basic

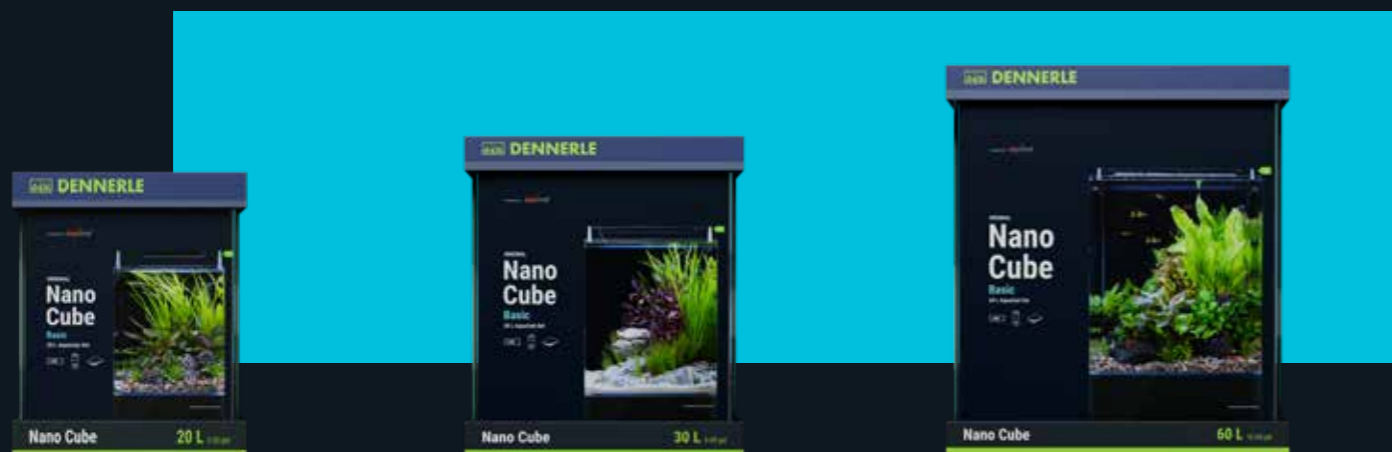

Nano Tank Basic

Basic Sets – the comfortable entry level with high-quality technology

The Basic Sets offer you an effortless entry level with perfectly coordinated technology: a quiet, powerful Corner Filter and the elegant Daytime onex black LED for brilliant, energy-efficient light and healthy plant growth.

It also comes with our compact starter guide, which takes you step by step through setup, maintenance, and initial stocking.

The choice of substrate is entirely up to you, whether you prefer light sand or deep black gravel. Compared to conventional aquarium sets, we focus on good technology right from the start.

Nano Cube Complete

Nano Tank Complete

Complete Sets – everything you need for the perfect start

The Complete Sets are based on the tried-and-tested Basic Sets. They expand the package to include everything you need to start a nano aquarium right away: the perfectly matched substrate.

Deponit Mix Black, a dark multi-mineral substrate, supplies plants with all the important nutrients directly at the roots and supports strong, vigorous growth for up to eight years. It is complemented by Shrimp Gravel black – a high-quality, deep black shrimp gravel with rounded edges.

With the Complete Sets, you get everything you need for a successful start – perfectly coordinated and ready to use. For a harmonious, healthy aquarium that impressively combines modern looks and natural beauty.

Filter

Corner Filter

Compact internal filter for freshwater aquaria

- Smooth and quiet operation
- Easy to use and easy to clean
- Water flow infinitely variable
- Filter outlet rotatable by 90°
- Filter can be operated in horizontal or vertical position

Corner Filter 40

Filter capacity: 150 l/h
Power consumption: 2 W
Up to aquarium size: 40 L

Corner Filter 60

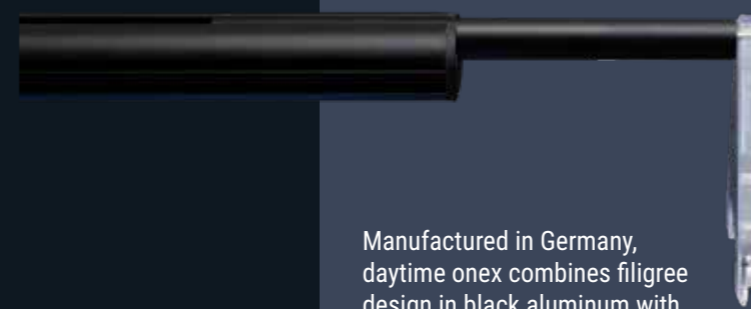

Filter capacity: 150 l/h
Power consumption: 2 W
Up to aquarium size: 60 L

Corner Filter 100

Filter capacity: 390 l/h
Power consumption: 5.1 W
Up to aquarium size: 100 L

Lighting

daytime® onex black

Manufactured in Germany, daytime onex combines filigree design in black aluminum with impressive light output and high efficiency.

daytime® onex20 black

Luminous flux: 864 lm
Color temperature: 7,000 k
Voltage: AC 100 – 240 V
 50/60 Hz
Power consumption: 4.8 W
Dimension lamp: 16.5 x 2 x 1.4 cm

daytime® onex30 black

Luminous flux: 1,296 lm
Color temperature: 7,000 k
Voltage: AC 100 – 240 V
 50/60 Hz
Power consumption: 7.2 W
Dimension lamp: 24 x 2 x 1.4 cm

daytime® onex40 black

Luminous flux: 1,728 lm
Color temperature: 7,000 k
Voltage: AC 100 – 240 V
 50/60 Hz
Power consumption: 9.6 W
Dimension lamp: 32.5 x 2 x 1.4 cm

daytime® onex60 black

Luminous flux: 3,024 lm
Color temperature: 7,000 k
Voltage: AC 100 – 240 V
 50/60 Hz
Power consumption: 16.8 W
Dimension lamp: 54 x 2 x 1.4 cm

Substrate

Deponit Mix Pro Black

Multimineral nutrient substrate for freshwater aquaria

- Long-term nutrient supply for at least 8 years
- With all essential nutrients, minerals and trace elements
- Matches with black gravel
- For safe rooting and a strong root development
- For healthy, strong plant growth

Shrimp Gravel, black

Shrimp gravel for freshwater aquaria

- Natural look
- Free from harmful substances
- Protection for bottom dwelling fish due to rounded edges (grain size 0.7 – 1.2 mm)
- Light-resistant
- CO₂ resistant and hardness-neutral
