1/2 Design Project

Creating better together

1/2 Design Project 是 ONF 推出的共創計畫，與愛好者攜手合作融合各領域的創新理念，探索產品更多可能性。我們尋找對植物或水景充滿熱情的素人設計師，儘管非專業設計師，但對產品使用有獨特見解，並樂於分享創意。我們與這些創作者合作將他們的理想產品化，並支持小規模生產，讓更多人一同享受這些創新設計。

這次的合作設計師是來自越南的@nhatanh_js (Nhật Anh)，一位熱愛自然的軟體設計師，設計並手工打造了ANA Light Stand這款燈架具備高度可調、360度旋轉的功能，以滿足植物的全方位照明需求，採用不銹鋼製作，耐用性強、穩定性高，讓使用者更放心。

The 1/2 Design Project is a co-creation initiative by ONF that collaborates with enthusiasts, integrating innovative ideas from various fields to explore new possibilities for our products. We seek passionate plant and aquascaping hobbyists who, though not professional designers, have unique insights into product use and are excited to share their creativity.

We partner with these creators to bring their ideal products to life and support small-scale production, allowing more people to enjoy these innovative designs.

Our current collaborator is @nhatanh_js (Nhật Anh) from Vietnam, a software designer with a love for nature, who designed and handcrafted the ANA Light Stand. This stand features adjustable height and 360-degree rotation to meet a plant's full lighting needs. Made from stainless steel, it ensures high durability and stability, giving users peace of mind.

SPECIFICATIONS	
尺寸 Size	L30 x W22 x H62 (cm)
重量 Weight	1600g/3.53lb
材質 Material	不鏽鋼 Stainless Steel

Design & made in Vietnam, by Nguyen Nhat Anh

3

將不鏽鋼橫桿套入零件後使用六角板手鎖緊

Insert the stainless steel crossbar into the component and tighten it with a hex wrench.

2

請先將收線器套入支架中，再旋上另一支架

Slide the cable organizer onto the stand, then screw in the second stand.

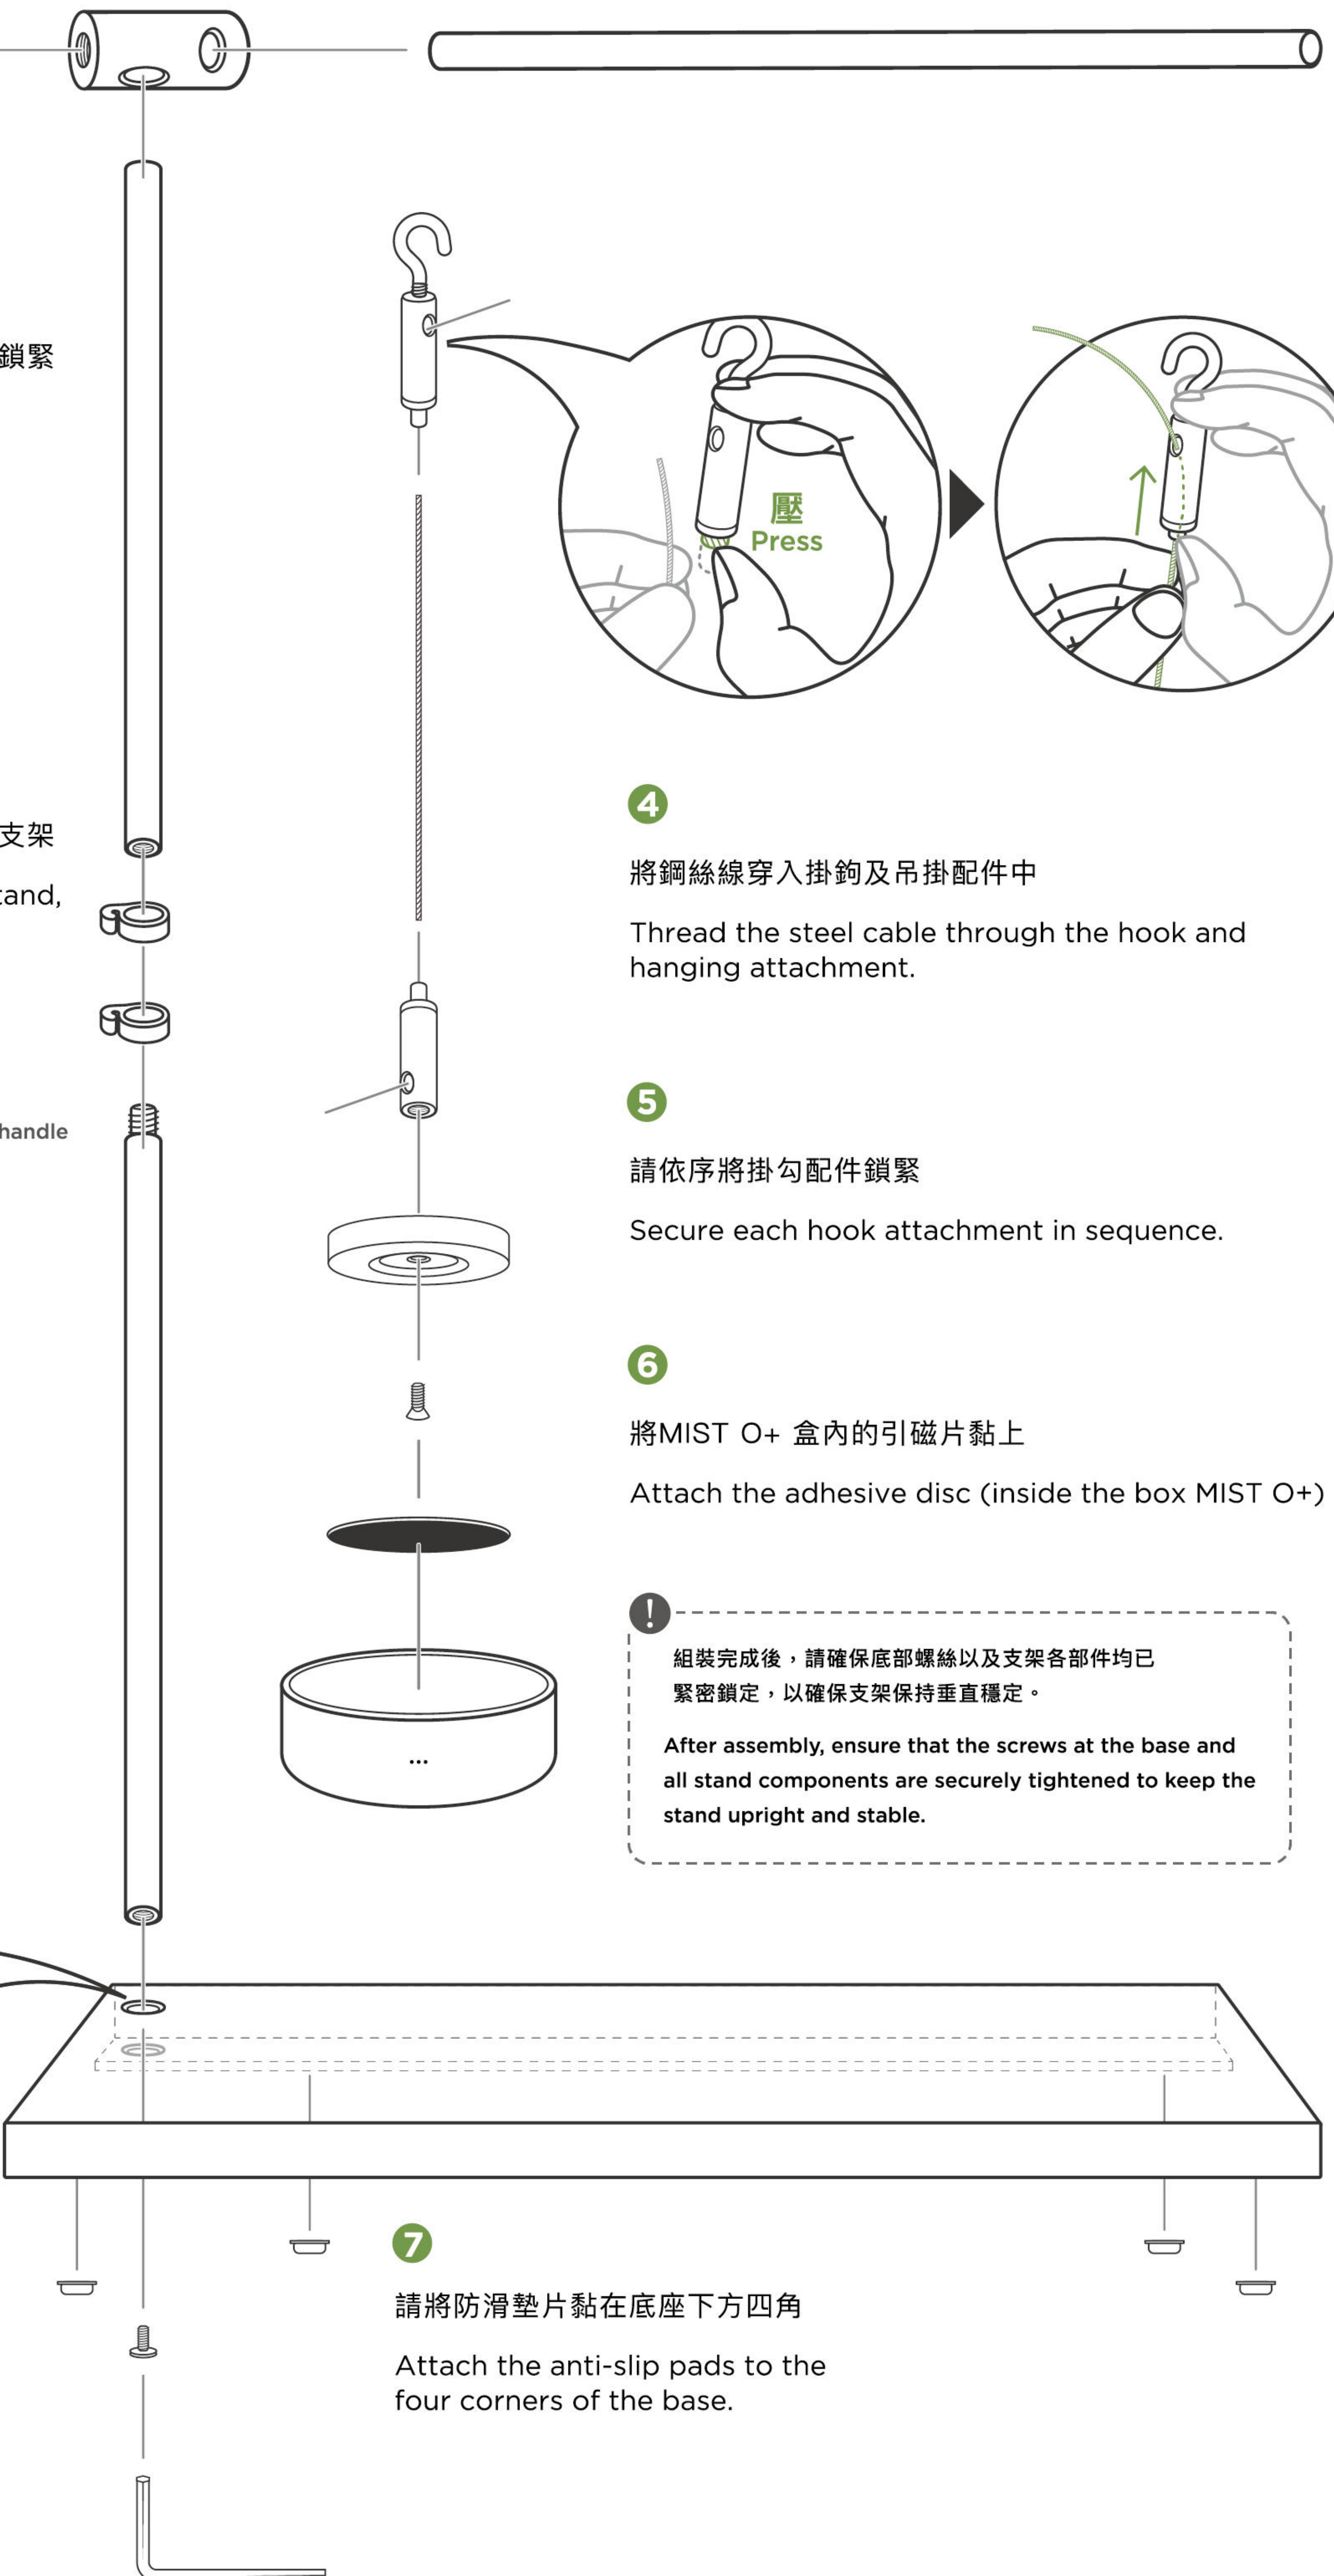

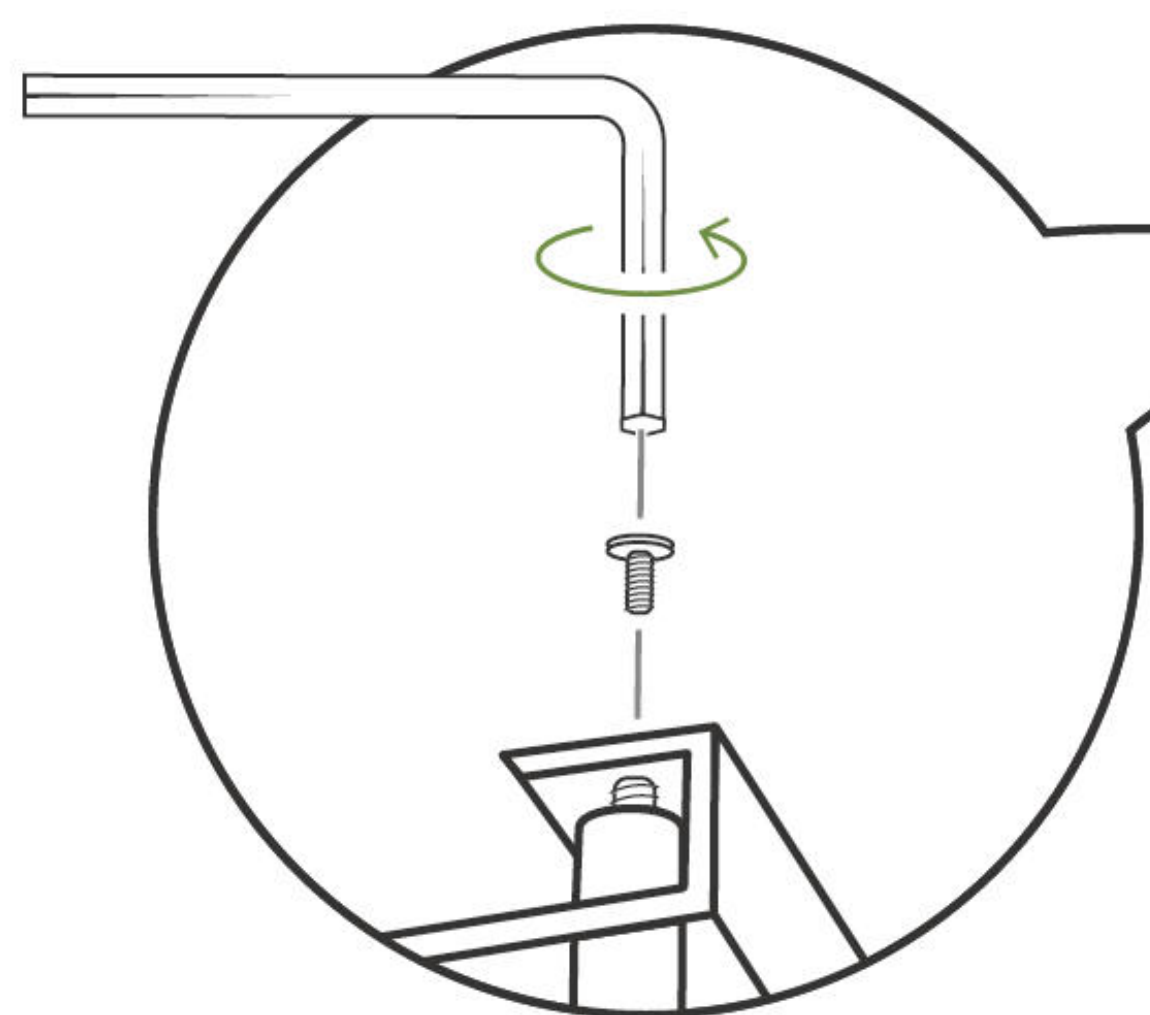

附贈的收線器為手工製作，非大量生產的工業製品，請小心使用避免斷裂。

The cable organizers are handmade, not mass-produced industrial products. Please handle them with care to avoid breakage.

1

將不鏽鋼支架轉入底座孔中並使用六角板手鎖緊

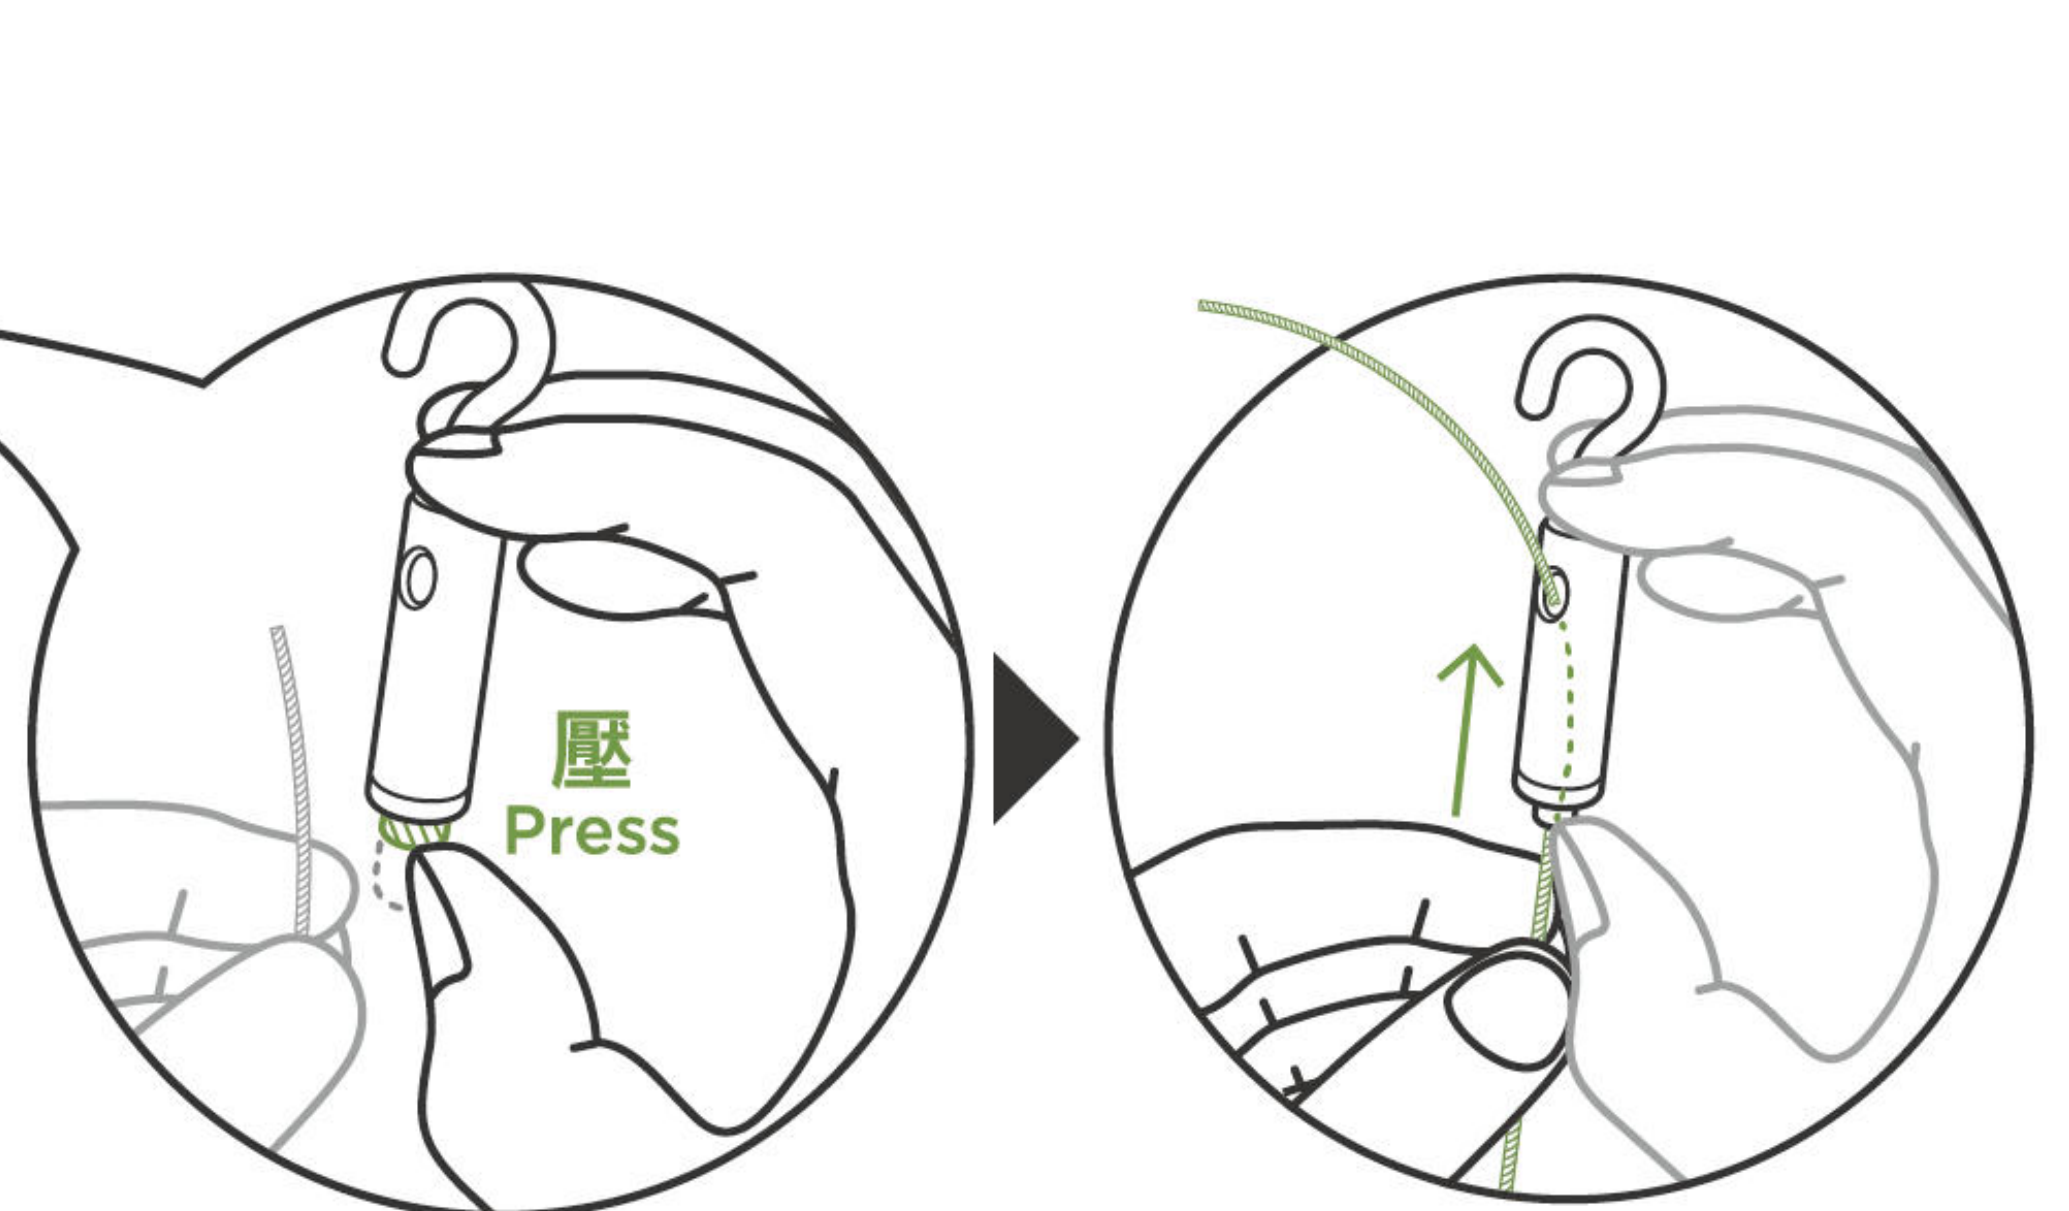

Insert the stainless steel stand into the hole on the base and tighten it using a hex wrench.

4

將鋼絲線穿入掛鉤及吊掛配件中

Thread the steel cable through the hook and hanging attachment.

5

請依序將掛勾配件鎖緊

Secure each hook attachment in sequence.

6

將MIST O+ 盒內的引磁片黏上

Attach the adhesive disc (inside the box MIST O+)

!

組裝完成後，請確保底部螺絲以及支架各部件均已緊密鎖定，以確保支架保持垂直穩定。

After assembly, ensure that the screws at the base and all stand components are securely tightened to keep the stand upright and stable.

7

請將防滑墊片黏在底座下方四角

Attach the anti-slip pads to the four corners of the base.
